

Have Your Own Cohort Groups

Districts may choose to have their teachers take online courses together in a cohort group. Cohort classes are available for groups of at least 10 or more teacher participants at no extra cost. Contact edPal to setup the class and schedule it at a time that's convenient for your group. Districts may choose to use their own expert teacher for a cohort group class, or edPal will provide an online instructor. For more information about cohort group classes, contact ed.director@edpal.com.
